

VIDEOMAIL CAMPAIGNS:

MAKE A COMPELLING CASE FOR YOUR CLIENTS TO PURCHASE YOUR GIFT CARDS OR GIFT CERTIFICATES ON LINE...

When it does come to sending emails to your clients, the best approach is to do it via video mail! Nothing can suggest, describe, propose, thank, recognize or appreciate like a 50 second video personalized to your business, services and or products!

Video email is a wonderful way to communicate with clients, friends and prospects to sell gift certificates with an online transaction platform directly linked in the browser

Video mail is much more personal than a conventional email, and so much better in client perception and response

Video player dispatched in an HTML email appearing directly in your client's email browser

Your clients will love receiving video mail from you

Video mail is a hair, spa and laser industry must have if you strive to compete at a higher level.
